## $creative\ technology - track(s)$

learning goals - computing

- network internet, organisations, graphs
- computer elements, programming, algorithms
- operating system assembly, compilers, multi-programming
- language formal/natural, imperative, functional, logical, C++/Java
- hardware memory, chaching, graphical programming support
- database representation, storage, query (optimazation)
- web client/server, web-services, data-driven application(s) standard(s)
- media scripting (ECMA+), event handlers/models

learning goals - new media

- interactive video in customizable format
- web technology for developing information portal(s)
- animation for simulations and (physical) systems
- virtual reality for games and virtual environments
- game development for entertainment and instruction
- rich internet application(s) for multimedia (web) applications

 $learning\ goals-mathematics$ 

- problem analysis & modeling
- calculus
- linear algebra
- (algebraic) geometry

learning goals – design

- sketch, drawing
- vr & cad modeling
- physical prototypes
- concept development

learning goals - creative technology

- computing architecture, networks, programming
- technology new media, smart technology
- creative applications creativity (mental + artistic), psychology, research/design methods, communication
- business marketing, planning, project management
- design sketch, prototype, realize
