Henri Bal: now

- Teaching interests:
  - Introduction computer science (BA)
  - Parallel Programming (MA)
- Research interests:
  - Large-scale distributed data processing, with applications in e-science and in Computer Science (semantic web, model checking, multimedia)
  - e-Infrastructures
  - Mobile computing & Clouds

Henri Bal: then

- Teaching interests
  - Data processing
  - Mobile computing
- Research interests:
  - Realtime processing/reasoning over continuous large-scale data streams
  - Full seamless integration of mobile devices into distributed computing infrastructures
  - Analyze software systems *in vivo*
