

Theo Gevers: now

- **Teaching interests:**
 - Image Analysis
 - Computer Vision
 - Intelligent Systems

- **Research interests: Image Analysis and Computer Vision**
 - Image processing
 - color, filtering, feature extraction, reflection modeling, photometry
 - Image understanding
 - physics-based, probabilistic
 - Object recognition
 - invariants, descriptors, scene
 - Activity recognition
 - Optical flow, tracking, model-based
 - Human-behavior understanding
 - eye tracking, facial expression, head pose, age and gender

Theo Gevers: then

– **Teaching interests:**

- Image analysis
- Computer vision
- Intelligent systems
- Human behavior analysis
- Multimedia processing and understanding

– **Research interests:**

- Image and signal processing
- Machine learning for computer vision
- Human behavior and image understanding
- Fusion of text and visual Information
- Object recognition and large scale learning
- Activity recognition
