

Paul Groth
now

Data/knowledge integration

- Provenance
- Adaptive/contextual/
intelligent integration
- Messy web data

Web Science

- Provenance on the web
 - Reconstructing
provenance
 - Information diffusion
- Network analysis on web data

Interdisciplinary Collaboration

- Social Scientist, biomedicine

Paul Groth
future

Data/knowledge integration

- Context
- Intelligent adaptation of data for different information needs

Web Science

- Automated judgment / trust
- Reconstructing real-world provenance
- Predictive network models

Interdisciplinary Collaboration

- continued
