

Gunnar Klau: now

CWI: Life Sciences group, VU: bijz. hoogleraar 1d/week

- Teaching interests
 - Algorithms, Algorithm engineering, Bioinformatics
- Research interests
 - Design and engineering of combinatorial algorithms and mathematical models for (NP-hard) problems in biology and medicine
 - Networks: modules, clustering, alignment

Gunnar Klau: then

- Teaching interests
 - same, focus probably more on large data
- Research interests
 - **Applying** established work (impact biology), studying **new** problems
 - Networks: **combining** modules + clustering + alignment
