

Joris Mooij: now

- Teaching interests:
 - machine learning, statistics (MA)
 - probability theory, calculus, linear algebra (BA)
- Research interests:
 - machine learning
 - causality
 - applications in life sciences

Joris Mooij: then

- Teaching interests:
 - machine learning, statistics (MA)
 - causality (MA)
 - probability theory, calculus, linear algebra (BA)
- Research interests:
 - causal reasoning and discovery: theory and applications
 - machine learning / statistics applications
