

Hans van Vliet: now

- Teaching interests:
 - Software architecture (@UvA and @VU)
- Research interests:
 - Software architecture
 - As a set of design decisions
 - In combination with agility
 - Human aspects of software engineering
 - In global settings
 - In relation to knowledge management

Hans van Vliet: then

- Teaching interests:
 - Software architecture/design
 - Project management in a post agile/GSD world
- Research interests:
 - Relation between architecture/design and other artifacts on one hand, and the (social) organization of teams in a post agile/GSD world on the other
